Framed Door Panel 90° Return Panel, Featuring Starphire® Glass and Iron Black Finish

METROPOLIS series
framed enclosures

Metropolis Series Framed Doors

Metropolis Series, influenced by Tudor window architecture, is fabricated with symmetrical, geometric, grid pattern. This European style from the late 18th Century offers Renaissance embellishments such as luxurious black metal finishes and hard-edge detailing. GlassCrafters' Metropolis Series is intended to complement a broad range of interior décors including Traditional, Transitional and Art Deco. The Series combines historic styling with fine craftsmanship.

Acid Etched

Starphire®
Acid Etched

6" SQUARE HANDLE

Starphire® glass is a super clear glass with significantly less color than standard clear glass, but is not color free. The larger the panel, the more noticeable the tint in the glass, especially on the edges.

Framed panel door 90 buttress panel, featuring Starphire® acid etched glass and oil rubbed bronze finish
